

Regional Advisory Forum: Expression of Interest

The Regional Advisory Forum meets twice a year across Wannon Water's service region, and aims to provide informed customer and community perspectives on Wannon Water's engagement findings and future direction. As a whole, the committee comprises members reflective of a diverse range of demographics who live in localities spread across Wannon Water's service area. Forum members will be reflective of the range of groups engaged through Wannon Water's Engagement Cycle, and include residential and business customers and representation from regional organisations.
