

## Wannon Water - beyond water for strong communities

Every day we support our communities with sustainable water services, while leading our communities towards a healthier, more prosperous future. It's a commitment that we're proud to make to the region we call home.

### We're South West Victoria's local, dependable experts

From the South Australian border to the Otways. From the Grampians to the coast. Our services take care of more than 30 communities, including residents, farmers, businesses and industries. It's our responsibility to supply them with fresh water, from source to tap, and manage sewage to protect their health and wellbeing.

Putting people first comes naturally to us so we're here to help with more affordable, reliable and personalised service. You'll see us around, in towns and on streets, maintaining and upgrading the pipes, pump stations and treatment plants we all need.

### We're making a real and positive difference

As locals, we're driven to shape our region for the better. We're committed to working with our communities and strategic partners to support the health and wellbeing of our people and protect our natural environment. We simply believe it's the right thing to do and it all comes back to our greater vision to go beyond water for stronger communities.

It's about delivering sustainable water services together with positive change for our region – and we're proud to be leading the way.
