Conditions of Connection to a Wannon Water Sewer Main

1. All applicable fees and charges for the connection works shall be paid prior to application processing, the issue of a PIC Consent Number, or the commencement of any works.
2. All charges under Wannon Water's requirements shall be paid prior to connection to Wannon Water's sewers.
3. The owner, or the Owner's Agent (plumber), shall provide a minimum of five (5) working days notice of Intention to commence sewer construction / alteration works. Major projects or complicated connections will require additional processing time. Unpaid New Customer Contributions will cause a delay in the issuing of the PIC Consent Number.
4. Connection is not permitted until after the completion of all underfloor / underground sewer drains. The materials used and Installation of works shall be in accordance with the Plumbing Regulations, all relevant Australian Standards and the *Water Act*.
5. The Plumber shall ensure that there is no damage to Wannon Water's connection point and/or sewer, and that approved backfill is used and compacted within 150mm of the pipework.
6. An inspection Shaft shall be provided in accordance with Wannon Water's standard plan. The inspection shall terminate at ground level and shall be finished with an approved cover.
7. Where a new point of connection is requested/required, Wannon Water operations will complete the connection to the sewer main.
8. Proposed Plans required (for Multi Residential, all Commercial and all Industrial Properties)
 - a) For multiple residential occupancies (units etc), a site plan is required of the proposed underground sewerage drain detailing the location of existing and proposed sewerage drains, man holes and inspection shafts to ensure proposed sewers are within easements or common property.
 - b) If the proposed works are on commercial or industrial properties, then a clear and legible site plan of the proposed works to scale is required.
 - c) A site plan is NOT required of the proposed work for a single residential property.
9. An "As Constructed Plan" of the on-site underfloor/underground works and connection works shall be submitted to Wannon Water within ten (10) working days of completion of the works. The plan shall be clear and legible and shall include:

a) measurements and ties	e) location of Manholes
b) Inspection openings and shafts	f) overflow relief gullies
c) underfloor drains (if applicable)	g) north point & road names
d) location of existing and combined sewer drains	h) outline of block and buildings

Example of detail required for proposed plan to accompany sewer connection application and for the "as constructed" plan
