## Terms and conditions for receiving a Rural Water Usage Limit increase

1. There are no significant constraints on the water supply system from which you are connected as determined by Wannon Water officers.
2. Wannon Water officers are satisfied that customers are pursuing appropriate water conservation measures on their properties and/or using alternative water sources where relevant such as roof water, ground water and surface water.
3. Wannon Water officers are satisfied that customers have experienced a change in their use of the land or a legitimate uncontrollable change in their water use that requires increased water volumes since the limits were set.
4. Customers have paid the rural water surcharge for exceeding their limit in each of the three proceeding completed financial years. This excludes water usage associated with leaks and unexplained usage.
5. A request for a limit increase has not been granted in the previous three years.
