## Conditions of connection to a Wannon Water sewer

1. The contractor must give Wannon Water a minimum of five (5) working days of intention to connect.
2. As-constructed information with the connection's tie, offset and depth is to be forwarded to Wannon Water prior to subdivision compliance.
3. The materials used, and the installation of the works on site, shall be in accordance with Plumbing Regulations, the standard drawing, the design drawing, all relevant Australian Standards and the Water Act.
4. The construction contractor will be responsible for the excavation, materials, pipelaying from the connection fitting, and reinstatement works.
5. All connection fees and charges are to be paid by the developer prior to subdivision compliance.
6. Connection date and time will be arranged between operations staff and the contractor. Please note that emergency works take precedent over planned works.
