

Minor Trade Waste (No Pre-Treatment)

Customer Listing Schedule

Wannon Water's Trade Waste Customer Charter provides for customers that discharge trade waste in small quantities, and which is of similar nature to domestic sewage, to be considered Minor Trade Waste (No Pre-Treatment) Customers.

Customers that are classified as Minor Trade Waste (No Pre-Treatment) Customers are considered to have entered into a Minor Trade Waste (No Pre-Treatment) Agreement with Wannon Water and must comply with Wannon Water's trade waste requirements, including the conditions contained in the Minor Trade Waste (No Pre-Treatment) Agreement.

All customers discharging trade waste, other than those assessed as being Minor Trade Waste (No Pre-Treatment) Customers, will be required to enter into a Trade Waste Agreement with Wannon Water.

A list of customer types classified as Minor Trade Waste (No Pre-Treatment) Customers is set out below. Wannon Water may add or remove customer types from this schedule from time to time.
