TEST

Check for leaks using your water meter

Follow these steps:

1. Turn off all water appliances but leave the meter's stop tap on.
2. Read your water meter. Write down the number.
3. Make sure no water is used over the next hour.
4. Once the hour is up, read your meter again.
5. If the two readings aren't the same, you may have a leak. Call a licensed plumber to investigate.
